Regularly invited to give expert insights into [STOs](#), investment strategies, and the implementation of [innovative blockchain-based solutions into finance](#), Manmeet will speak about the utilities of Cardano as the first third-generation blockchain that is built to address the financial needs of scalability, sustainability, and interoperability, and how EMURGO is driving Cardano adoption by raising awareness with a wide variety of potential stakeholders.

Earlier this year, EMURGO announced Y2X - a leading New York-based digital merchant bank - will help entrepreneurs raise capital for expansion through Securities Token Offerings (STOs) and other means. In his role as EMURGO CFO & CIO, Manmeet spearheads its global strategy focusing on building the accelerator, education and investment units of EMURGO. As a tech geek, he went from an interest in blockchain and its worldwide

impact to actually running, mentoring and investing in blockchain businesses. Manmeet now holds a number of active positions in the blockchain space: he is a Council Member of the Cardano Foundation, Founding Member of [Blockchain for Europe](#), Co-Founder of [Y2X](#), Advisory Board Member at [Blox](#) as well as Managing Partner of his private fund, Blockseed Ventures. He also is Managing Director at EMURGO & [SOSV](#)'s launched [dLab](#) blockchain accelerator that is now [accepting its next batch of startups for Q3 2019](#).
