

A Statement Update From EMURGO about EMURGO Academy in India

 emurgo.io

To the EMURGO Community: March 27, 2019

We would like to thank you for your interest and feedback regarding our recent EMURGO Academy launch in India. As always, a big thanks to you for supporting EMURGO!

We've received many inquiries on social media and would like to keep our prized community in the loop regarding this matter.

While we have officially launched the EMURGO Academy program, exact starting dates have yet to be determined. Applications to register are expected to be opened shortly.

Meanwhile, EMURGO Academy in India currently has four products in the works to offer to interested parties. These products are now for the time being, available to selected partner universities and organizations in India. We wish for EMURGO Academy to be implemented in more countries around the world, although we have no additional comment to make at this time.

1. EMURGO @ Campus

- An intensive course designed for college students, who have an understanding of IT and knowledge of programming languages.
- All the faculty members are trained by EMURGO to deliver the program within the college premises along with online sessions for use cases. The course comes with the additional advantage of career options by EMURGO.

2. EMURGO for Working Professionals

- A comprehensive course meant for working professionals who possess programming skills and have 2 to 15 years of experience in their field.
- The program is well knitted to provide holistic learning, encourages learners to participate, analyse a given situation and arrive at decisions, thus developing confidence and building the required skills. The Case Study Methodology and the insights from CXO's helps to provide far greater exposure, develop multi-disciplinary skills.

3. EMURGO for Entrants

- A comprehensive course for Freshers and Professionals having programming skills along with 1 year of total experience, is designed to help them understand the fundamentals of blockchain.
- The program is delivered via online/offline/ classroom teaching methodology. Delivered by resident as well as global faculty, the program comprises of international case studies for better understanding and execution of blockchain

4. EMURGO for Industry

- A unique approach, where the courses are designed according to corporate requirements. Corporate clients can pick up the module of their choice and international faculties will deliver the programme according to the client-specified timeline.
- The program is designed and developed to entertain the corporate requirements and are delivered to accommodate the specific modules and timelines. The online and offline case Study Methodology and insights from industry experts help to provide another dimension to the program.
