

# EMURGO Moves to New Office! Here is a Behind the Scenes Look!

In previous posts, we shared with you how 2018 was a fruitful year for EMURGO. In 2019, our office has relocated from Shibuya to Akasaka, the central commercial district of Minato, within Tokyo. You can easily find famous companies in our neighbourhood. Our office is 500 square meters, located at the top floor of the building. We have a dedicated space for meetups and offline community meetings to be held in the near future. Let's give you a behind the scenes look at some of the rooms.

Here is a peek at our new entry way. After exiting the elevator this is what you would see. Notice the new EMURGO logo! This is quickly becoming a favorite spot for pictures with all our guests.

When you turn left from the entrance, you will find a dedicated space for meetups and offline community meetings. You can also see the glass-walled conference room at the other side.

We have four conference rooms, each with unique design and name. These room are named as Crypto, Wallet, Gerolamo Cardano and Ada Lovelace respectively. They further express our passion and admiration for the technology and the projects being built. Check out the photos below:

There is so much more to see in our new office, but you will have to come visit us and see for yourself!  
Keep an eye on our social media to learn about the latest event announcements!

Bonus picture! Our CEO, Ken Kodama, with the Japan office staff at the new office.
