Yoroi Light Wallet for Cardano ADA - EMURGO's 1.6.0 release launch on Chrome!

emurgo.io

EMURGO, official Cardano partner and commercial arm, is excited to announce the new release of Yoroi Wallet version 1.6.0 on Chrome. Yoroi, a light Cardano ADA wallet developed by EMURGO, derives its name from the incredibly ornate ancient armor worn by Japanese samurais. The armor was a combination of iron and leather exquisitely constructed for over a year. The name implies that Yoroi Wallet is strong and armor-like; tailored to safeguard one's assets. Yoroi Wallet is a light wallet because it doesn't need to download or synchronize the entire blockchain; once it is opened, it can send or verify the reception of transactions immediately. Thus, it is the ideal light wallet for Cardano; simple, fast and secure to use, creating an enhanced user experience.

Since EMURGO first launched our Yoroi Wallet in 2018, reviews from users have been overwhelmingly positive, with an overall 5-star rating in the Chrome Store, iOS store, and ! In addition, the product is proving quite popular on social media as the lion's share of comments are exceedingly positive! Check also our article of Yoroi Wallet: Roadmap Milestones Achieved for 2018 Q4.
